

A GUIDE TO AI IN SCHOOLS

Perspectives for
the Perplexed

by educators, for educators

ABOUT THE GUIDEBOOK

The project was planned, facilitated, and coordinated by:

Justin Reich (MIT Teaching Systems Lab, Director) – principal investigator.

Jesse Dukes (Diamond Shoals Productions, Researcher and Podcast Producer) – interview project lead.

Josh Sheldon (MIT Teaching Systems Lab, Project Lead) – guidebook producer.

Julie M. Smith (Institute for Advancing Computing Education, Senior Education Researcher) – researcher and guidebook writer.

Manee Ngozi Nmani (MIT Teaching Systems Lab, Researcher) – researcher.

Natasha Esteves (Independent Curriculum Writer) – researcher.

Interviews were conducted by Natasha Esteves, Holly McDede, Andrew Meriwether, Andrew Parsons, Chris Bagg, and Jesse Dukes; some interviews were facilitated by InTandem. Yebu Ji (project intern) provided fact checking and support. Jessica Rondon provided administrative support.

ADVISORY PANEL

Meredith Dutra, Director of Technology and Innovation, North Salem Central School District

Sara Falls, English teacher, Abraham Lincoln High School, San Francisco Unified School District

Nanki Kaur, American High School, class of 2025

Maureen Russo Rodríguez, Founder of the AI Co-Lab and faculty at St. Mark's School (MA)

Chad Sussex, 7-12 Assistant Principal, AI Task Force Leader, and AI Consultant, Winterset CSD

Shana White, Director, CS Equity Initiatives, Kapor Center

ACKNOWLEDGEMENTS

Interviews were supported by the Spencer Foundation, the Kapor Foundation, the Jameel World Education Lab, Google's GARA program, the Social and Ethical Responsibilities of Computing initiative at MIT (SERC), and the RAISE initiative, Responsible AI for Social Empowerment and Education, also at MIT. This material is based upon work supported by the National Science Foundation under Grant No. 2219365.

Haley McDevitt, guidebook designer and illustrator.

Table of Contents

Preface	01
1. How – and Why – to Use this Guidebook	03
2. What Ethical Issues Should We Consider When Choosing Whether and How to Use AI?	05
3. How Does AI Impact Student Learning?	09
4. How Does AI Impact Teachers?	13
5. How Should We Determine Our AI Policies?	14
6. What Should Teachers Know about AI?	19
7. Should Schools Teach Students about AI?	25
8. When and How Should Students Be Allowed to Use AI?	29
9. Do We Need and Want AI in Our School?	38
10. Resources	43

“

[AI is] accelerating so fast, and we are struggling to catch up to it.

”

- Alec Jensen (teacher, Abraham Lincoln Elementary School)
