

HP in Emergencies Assessment/Monitoring form

Hygiene Behaviour Check							Possible Collection methods
Community Structure							
1. Where do the community live?							G, OE
2. What is the population	No. of People				No. of Households/Tents		G, HW, CR, OE, WC
	Men	Women	Boys	Girls			
3. According to them what are the priority problems order?	Food shortage	Security	Water Availability	Shelter	Health	Other	HW, CL, HI, OTW, OE, WC
4. Has there been any change in the priority problems order? What is the change?							HW, CL, HI, OTW, OE, WC
5. Do people have adequate shelter, fuel, food and security?	Yes				No		OE, CL, OTW
6. Is there any change to the effective communication channels?	Yes / No						HW, CL, OTW, CI
Public Health Situation							
7. What are the main public health problems or risks?							G. OE, CL, CR, HERU
8. Is there any change in spread of diseases in the community?	Yes / No If yes, what diseases and change?						G. OE, CL, CR, HERU
9. What is the water and sanitation related morbidity and mortality?							G. OE, CL, CR, HERU
10. What changes will have the greatest impact on public health?							G. OE, CL, CR, HERU
Safe drinking water							
11. Is there any change in water sources people use?							HW, CL, OTW, CI, M
12. Are the water sources protected?							
13. Is there any change in why people use this water source?	Only source		Like the taste		Best pure water		HW, CL, OTW, CI, M, FGD
14. Is the water available continuously?	Yes / No						HW, CL, OTW, CI, M, FGD
15. For what purpose do they use the water?	Drinking		Cooking		Bathing	Washing dishes	CL, OTW, CI, M

16. Is the drinking water likely to be contaminated? Why do you think so?	Yes /No					CL, CI, M, FWT	
17. Who mainly goes to collect water for the family?	women		men		children	CL, CI, FGD, HI	
18. How long people have to queue for water?	30 mins	1 hour		More than an hour		CL, CI, FGD, HI	
19. Is there adequate drainage around the water points?	Yes/No					CL, CI, M, OTW	
20. Are drinking water containers clean and sufficient in number?	Yes / No					CL, CI, FGD	
21. Do they use any treatment method before using water?	Boiling	Chlorination		Solar	Other	CL, CI, FGD, HI, HW	
22. What do people use to store drinking water in?	Jerrycan	Buckets with lid		Open containers	Other	CL, CI, FGD, HI, HW	
Safe excreta disposal							
23. Where do people defecate?	Communal Latrines	Shitting field		Open defecation	Trench pit latrines	CL, CI, FGD, HI, OTW, PC	
24. Has there been a change in the percentage of people using latrines?						CL, CI, FGD, HI, OTW, PC	
25. Is there change in evidence of open defecation around the community location? Is it better or worse?	Yes / No Better / Worse					CL, CI, FGD, OTW	
26. How many latrines are there? Is this more than before?						CL, CI, FGD, OTW, M	
27. Do children use latrines?	Yes /No					CI, FGD, OTW, HI, HV	
28. Who cleans the latrines? Has there been any change in the responsibilities of latrine cleaning?						CI, FGD, HI	
Handwashing							
29. Which key times do people wash their hands?	After latrine use	Before eating	Before preparing food	After handling baby's faeces		Other (specify)	HW, CI, FGD, HI, PC
30. What is the estimated percentage of people who wash their hands in key times?							HW, CI, FGD, HI, PC
31. What is used for handwashing?	Soap		Ash	Only water	Other		HW, CI, FGD, HI, PC

32. Do they still have sufficient number of soap?	Yes / No			CI, FGD, HI, HV
Hygiene Practices				
33. Is there any change in number of households who cover their food?	Yes / No			CI, FGD, HI, HV
34. Is there any change in the available garbage cans?	Yes / No			CI, FGD, HI, HV
35. Is the surrounding of the community cleaner than before?				
36. Is there proper animal management?				
Hygiene Practices				
37. Is there a communal garbage pit? And how is it managed?	Yes / No			CL, CI, FGD, HI, M, OTW
38. Is there problems of rats, mosquitoes and lice?	Yes / No			CL, CI, FGD, HI, OTW
39. Is there a lot of flies around?	Yes / No			CL, CI, FGD, HI, OTW
40. Is there proper drainage for waste water?	Yes / No			CL, CI, FGD, HI, OTW, M
41. Is there a need for non-food items to improve hygiene and dignity of community members	Yes / No			CL, CI, FGD, HI, OTW, M
Menstrual Hygiene				
42. What do women use during menstruation? Any change in the percentage of usage of items?	Clothe	Sanitary Pads	others	FGD women, HI, HW
43. Are the latrines with enough privacy for women? Any changes made in the latrine design and usage?	Yes / No			FGD women, HI, HW
44. Is there washing and handwashing facilities?	Yes / No			FGD women, HI, HW
Priority and Vulnerable groups				
45. Is there any change in the number of people in the community with disabilities or injuries?	Yes / No Estimated number:			HW, CR, CL, FGD, HV, HERU
46. Are the latrines easily accessible for these people? Any changes made on accessibility?	Yes / No			HW, CR, CL, FGD, HV, HERU

Key for Possible collection methods

Discussions/Meeting with Government- G	Mapping- M	Health ERU- HERU
Discussion/Meeting with Health workers- HW	Pocket Chart exercise- PC	WASH Cluster- WC
Discussion/Meeting with Community or Camp leaders- CL	Focus Group Discussions – FGD	Other ERUs- OE
Observation from Transect Walk – OTW	Household Interviews - HI	Field Water Test- FWT
Community members Interviews – CI	Clinic records - CR	House Visit- HV
