Once users have created their teams, they can join different contests with other users and compete against them. The contests have different entry fees, and users can win cash prizes based on their performance. The app uses a points system to award points to players based on their performance in the real match. Users who have players that perform well in the real match get more points, and the user with the highest number of points at the end of the contest wins the prize.

How Does a Cricket Fantasy App in India Work?

A cricket fantasy app in India is an online platform that allows users to create virtual cricket teams and compete against each other.
