The Top 4 Affordable Braun Oral B Electric Toothbrushes

Braun Oral B provides a wide range of electric toothbrushes; both cheap models and advanced ones. So you can always find a model from Braun Oral B that suits your needs.

One of the most advanced electric toothbrushes is the Oral B Triumph. It has a unique Deep Clean mode that removes up to 99.7 % of plaque; also in the hard-to-reach areas. Also included are multiple attachment brush heads and four brushing modes: Sensitive, Daily Clean, Deep Clean and Whitening.

If you want an even more advanced model, you can buy the Oral B Triumph with a SmartGuide. This is a remote wireless display designed to provide guidance for a gentle and perfect brushing. It includes a visual pressure sensor with alerting, if you are brushing too hard. It also includes brush head changing alarm and brushing guide.

The [Oral B Professional Care](#) is a series of electric toothbrushes; ranging from a simple rechargeable model to the top model with a SmartGuide. All models have 3D cleaning action system, 40,000 pulsations per minute and 8,800 oscillations per minute. The system helps to loosen and sweep away the plaque.

The Professional Care electric toothbrushes have pressure sensors that stop pulsations, if you brush too hard. Included in the toothbrush is also alerting when you need to replace the brush head.

A new unique the oscillating-rotating technology founded by Oral B is built into the Advance Power electric toothbrush. The technology is clinically proven to improve the teeth cleaning; with healthier gums and whiter teeth. It does also do a better job removing plaque and stains than a manual toothbrush. Still it is as gentle for the gums and teeth as the manual version.

The Advance Power models are all water-resistant. They have built-in timers that make sure you follow the recommended brushing time.

The Oral B Cross Action is one of the simplest models. But it still provides cleaning and whitening. Its action cup brush head almost hugs the teeth, which helps the toothpaste to hold for a more effective removal of stains. Plaque is broken up with the blue cleaning system.
